

# Empowering Music

---

Much like I shared Nelly Furtado's song *Powerless* and discussed its lyrics and meaning with you, I would like you to do the same. Find a song that is an example of empowerment OR disempowerment and explain below.

Start your explanation with a general comment on what the song is about. Then identify specific lyrics that reflect empowerment or disempowerment, then *explain*. Tell me at least two different examples of empowerment and/or disempowerment, with an explanation. Sum up the paragraph with a sentence on how the song as a whole is about empowerment/disempowerment.
